***Reasons For Allowance***

1. The following is an examiner's statement of reasons for allowance: the examiner agrees that the prior art does not teach or suggest the presently claimed method of rejuvenating a Pt containing diffusion aluminide coating by treating with a solution consisting essentially of nitric acid and phosphoric acid at about 70-80°C until at least part of the additive layer has been removed, but the diffusion zone remains, followed by depositing a Pt layer, heat treating said layer, and aluminizing, substantially as presently claimed in independent claims 1 and 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Janelle Combs-Morillo whose telephone number is (571) 272-1240. The examiner can normally be reached on 8:30 am- 6:00 pm.
